

2019 FOLIO COMMUNITY LEADERSHIP PROGRAM

WHAT WILL BE YOUR LEGACY?

Being a senior leader in your own technical field of expertise is no longer enough. So are you ready to grow and be challenged?

This seven-month experiential, learning focused program is for those seeking a portfolio career as the next step after significant professional success.

APPLICATIONS NOW OPEN

“Working predominantly my entire career in the private sector, the values and beliefs existing within our group from a not-for-profit perspective have both challenged my own values and shaped them to what I believe will be a life changing experience.”

**LEADERSHIP
VICTORIA**

Folio, our senior flagship program, is an intensive seven-month program for senior leaders with well-established careers seeking to take the next step to broaden their portfolio of leadership skills and leverage their contribution and legacy in their organisational role and beyond.

Are you ready for provocation?

This experiential program based on the Williamson format includes an opening and closing residential retreat, a series of monthly workshops and seminars, two evening sessions and a formal program graduation to the LV Alumni. Drawing on the experience of our expert facilitator, a range of dynamic guest speakers and a diverse group of peers in the room, you will explore: leadership; vision, influence and ethics; community leadership; collaboration; and networks.

A key learning component is undertaking a collaborative project focusing on real-world community issues. This collaborative group project will be for the life of the program and beyond, providing the opportunity to develop and apply collaboration, community leadership and communication skills.

Program Outcomes

Folio provides the ultimate networking opportunity with participants drawn from senior roles across the government, corporate and community sectors; enabling participants to connect and converse with other leaders from different perspectives and backgrounds to solve complex problems; and consider how they can continue to leverage their leadership skills for positive impact beyond their professional career.

- An awakening of the impact and complexity of critical social issues, such as social fragmentation, climate change and growing institutional distrust
- Clarity of purpose and a vision for your community leadership
- A clear pathway to achieve social impact and leave a lasting legacy
- Refresh/regain your personal life purpose
- Learn how to influence sectors, governments, policy-makers, when leading without authority
- Life-long network of highly-senior leaders from across the government, corporate and community sectors

“For me, the courage, honesty and simplicity with which those in our community facing great challenges and disadvantages, retold their stories. I was particularly inspired by one man who had been orphaned, abused as a child in care, a prisoner for many years and homeless, now helping others in trouble.”

INVESTMENT

The fee for the Folio Community Leadership Program comprises both an organisational component and a participant component:

	Price excluding GST
Standard	\$8,500.00
Not-for-Profit	\$7,200.00
Individual	\$950.00

Optional: Folio Plus

Some participants are keen to further explore some of the models of particular relevance to their situation in an individual rather than group setting. To cater for this, we now offer a customised extension package: **Folio Plus**, a package of additional 1:1 support which further leverages your leadership learnings, providing individual support to integrate your learnings into your workplace, and augmenting core program content.

Folio Plus comprises three coaching sessions, plus a one-on-one Leadership Development Framework (LDF) debrief, plus an additional (longitudinal) administration and one-on-one debrief of the LDF, following the **Folio Plus** individual program.

"FOLIO has provided me the opportunity, through the generosity of so many of my peers, to know myself more deeply – my biases, reactions and fears. I have found inspiration with leading mindfully, by making shifts to - being, stillness, deep generous listening and valuing the present. I am looking forward to friendships that will last much longer than seven months of the program."
