

EXCEPTIONAL LEADERS CREATING A BETTER WORLD.

Leadership Victoria (LV) exists to inspire, develop and connect exceptional leaders who are driven by personal development and professional excellence and share our passion for creating a better world.

Over 25 years, we've curated a deep knowledge of the attributes essential to exceptional leadership. And we use these to develop skilled and energised leaders across today's business, government and community landscapes.

There are four pillars to our work – Leadership Wisdom, Development, Networks, and Impact – which we use to share what we know and actively contribute to the creation of a better world, with our extensive network including graduates, alumni, volunteers and partners.

OUR MISSION

Inspiring, developing, connecting and supporting leaders for thriving organisations in a better world.

OUR PURPOSE

Leadership Victoria's purpose is to contribute to a bright future: we inspire and develop leaders, create networks and drive change for positive economic, social and environmental outcomes.

We do this through building and communicating leadership knowledge, delivering world-class leadership development activities, bringing together leaders in effective networks, and by supporting leaders to have an impact in their professional roles and as skilled volunteers addressing complex leadership issues.

OUR VISION

Exceptional leaders creating a better world.

OUR STRATEGY

LV fundamentally believes that progress is made by exceptional leaders.

We define "progress" as the ethical creation of wealth, the improvement of the human condition, and fostering an improved and sustainable natural environment.

A better world comprises businesses which are thriving, governments which add value for all, and civic organisations which address the toughest issues that may not be soluble solely through money or mandate.
