ABOUT LEADERSHIP VICTORIA

Leadership Victoria is an innovative, independent social enterprise. Our vision is for a better world, where everyone is able to exercise purposeful leadership and contribute to an inclusive and sustainable future. We exist to inspire, connect and mobilise exceptional leaders, and our rich transformative learning experiences enable people to find their leadership purpose.

For 30 years, we have been connecting and empowering leaders across business, government and community sectors, enabling them to exercise the leadership required to address today's complex challenges and contribute to positive economic, social and environmental outcomes. We purposefully connect leaders with diverse backgrounds, experiences and perspectives to enable fresh thinking on complex challenges. We facilitate powerful networks that endure beyond our programs, enabling leaders to amplify their leadership impact in their organisations, sectors and communities.

We view leadership as the ability to mobilise others to achieve important outcomes. We believe that leadership is an activity, not a formal authority role, meaning that anyone can exercise leadership anywhere at any time. We focus on purpose, ethics and values, developing adaptive leaders who are inquisitive and reflective. Leaders who want to make a difference and have the skills and mindset to do so.

We draw on key research from the leadership field and beyond, and continually refresh our methodology and approach to ensure we apply contemporary thinking and best practice in our programs. Our programs are delivered in a range of formats and draw on and incorporate a variety of elements. They cater for all levels of leadership and provide dynamic and integrated experiences enabling participants to build their understanding of concepts through activities and discussion framed by real-world leadership challenges and situations, as well as through reflection, sharing and practice in the workplace.

In addition to our open enrolment programs, Leadership Victoria partners with many organisations across the business, government and community sectors to co-design and deliver customised programs for leaders at all levels, supporting organisational transformation and evolution.
